29321 Hamm Road
Eugene, OR 97405

To Whom It May Concern:

It is my pleasure to write this letter recommending Greg Morrow of Morrow and Sons Construction. I have worked with Greg now for over nearly one and half years.

Greg was introduced to me by the owner of one of our firm's current projects. This owner chose Morrow and Sons construction after a thorough search, personally viewing his work and confirming that his personality and temperament would be a perfect match for the project. They were right. During the design phase of the project, Greg contributed his expertise to the project's development with his experience as a timber framer and carpenter. Despite this expertise, Greg is not afraid to try new building techniques as proposed by an architect.

Throughout construction, Greg demonstrated that he understands the value of working as a team with both the owner and architect. He has shown great patience and flexibility with a multitude of owner-driven design changes during construction. In addition, Greg provided essential contributions of ideas to support the changes.

Greg's talents as a professional are supported by the high-quality craftsmanship of Greg and his crew. Everyone at Morrow and Sons takes great pride in the craft, and this is most evident in the details where they bring a high level of refinement to the framing. It is clear that Greg views the expression of the structure as an extension of his workmanship.

It is with full confidence that I commend Greg Morrow to you as a builder for a highly crafted and meticulously detailed home. Should you have questions or require additional information, it would be my pleasure to receive your call.

Very truly yours,

Richard J. Shugar AIA, *Principal*
